

VR-2

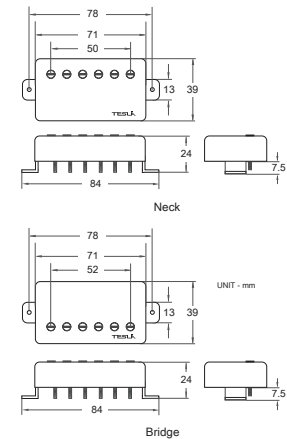

The VR-2 pickup captures the smooth vintage sounds and eliminates the harsh midrange tones that are normally associated with similar vintage style pickups.

Designed after the vintage humbucker, the VR-2 pickup is carefully made with heavy Formvar copper wire and bar type Alnico 5 magnets. The coils are wax potted for stabilization to insure the complete, clean reproduction of sound.

Equipped with 4 wire leads that give the player endless tonal possibilities.

Position	D.C.Resistance	Resonant Peak	Spacing	Output Level	Tone Chart:
NECK:	7.2 kohm	7.8 kHz	50 mm	MID	
BRIDGE:	8.8 kohm	6.9 kHz	52 mm	MID-HIGH
